Fill in the blank with always, sometimes, or never.

1) The diagonals of a parallelogram are ____ congruent.
2) The diagonals of a kite ____ bisect each other.
3) The diagonals of a trapezoid are _____ congruent.
4) Consecutive angles of a rhombus are ____ supplementary.
5) Consecutive angles between bases of a trapezoid are _____ supplementary.
6) The diagonals of a kite ____ bisect the angles of the kite.
7) The diagonals of a rhombus are _____ congruent.

I'm a quadrilateral and ..... What MUST I be? What could I be?

1) My diagonals are perpendicular bisectors of each other.
2) My diagonals bisect each other.
3) My opposite sides are congruent.
4) My diagonals are congruent and bisect each other.
5) One of my diagonals perpendicular bisects the other diagonal.
6) My congruent diagonals perpendicular bisect each other.

Fill in the blank with always, sometimes, or never. if a rectangle

1) The diagonals of a parallelogram are S congruent.
2) The diagonals of a kite N bisect each other.
3) The diagonals of a trapezoid are S congruent. if isos.
4) Consecutive angles of a rhombus are A (true for all parallelograms) supplementary.
5) Consecutive angles between bases of a trapezoid are A supplementary. C-39
6) The diagonals of a kite A bisect the angles of the kite.
7) The diagonals of a rhombus are S congruent. if a square

I'm a quadrilateral and ..... What MUST I be? What could I be?

1) My diagonals are perpendicular bisectors of each other. Must – Rhombus Could – Rhombus, Square
2) My diagonals bisect each other. Must-parallelogram Could- parallelogram, rect, rhom, sq.
3) My opposite sides are congruent. ~~Must~~ Same as 2
4) My diagonals are congruent and bisect each other. Must- rectangle Could-rect, square
5) One of my diagonals perpendicular bisects the other diagonal. Must/could - Kite
6) My congruent diagonals perpendicular bisect each other. must/ square could
