

Chapter 5

Practice 2

Name _____ Period _____ Date _____

Lesson 5.4

1. What conjecture tells you that $\triangle AND$ is congruent to $\triangle DYA$?

2. What conjecture tells you that $\triangle PTA$ is congruent to $\triangle PTR$?

3. What conjecture tells you that $\triangle ROB$ is congruent to $\triangle RHT$?

From the information given, complete each statement. If the triangles cannot be shown to be congruent from the information given, write "Cannot be determined" and redraw the figures to show that the triangles are clearly not congruent. Do not assume that segments or angles are congruent just because they appear to be congruent.

4. $\triangle MAL \cong$ _____

5. $\triangle HED \cong$ _____

6. $\triangle ABH \cong$ _____

7. ABCD is a rhombus.

$\triangle ABD \cong$ _____

8. $\triangle XYZ \cong$ _____

9. $\triangle ACB \cong$ _____

Lesson 5.5

13. What conjecture tells you that $\triangle ABC$ is congruent to $\triangle MNO$? _____

14. What conjecture tells you that $\triangle DEF$ is congruent to $\triangle MNO$? _____

15. What conjecture tells you that $\triangle XZY$ is congruent to $\triangle XZW$? _____

Practice 2

Name _____ Period _____ Date _____

Lesson 5.4

1. What conjecture tells you that $\triangle AND$ is congruent to $\triangle DYA$?

SSS

2. What conjecture tells you that $\triangle PTA$ is congruent to $\triangle PTR$?

~~SSS~~ SAS

3. What conjecture tells you that $\triangle ROB$ is congruent to $\triangle RHT$?

~~SAS~~ SSS or SAS

From the information given, complete each statement. If the triangles cannot be shown to be congruent from the information given, write "Cannot be determined" and redraw the figures to show that the triangles are clearly not congruent. Do not assume that segments or angles are congruent just because they appear to be congruent.

4. $\triangle MAL \cong \triangle TEN$

SAS

5. $\triangle HED \cong \triangle HPD$

SSS

6. $\triangle ABH \cong \triangle IBT$

SAS

7. ABCD is a rhombus. $\triangle ABD \cong \triangle CBD$

SSS or SAS

8. $\triangle XYZ \cong \triangle XWZ$

SSA

9. $\triangle ACB \cong \triangle CBD$

SSA

Lesson 5.5

13. What conjecture tells you that $\triangle ABC$ is congruent to $\triangle MNO$? ASA

14. What conjecture tells you that $\triangle DEF$ is congruent to $\triangle MNO$? SAA or AAS or ASA

15. What conjecture tells you that $\triangle XZY$ is congruent to $\triangle XZW$? SAS
